FORMAT FOR ASSESSMENT OF ECE
Blood bank

Session number: 1

Date: 28th Nov 2019

Setting: Classroom/Hospital/Community

Score:

Department visited: Pathology

Parent department: physiology

Summary & conclusions

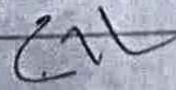

- We visited blood bank in our hospital.
- We observed the different components of blood and how they were stored.
- We were also made aware of particle to prevent mismatched blood transfusion.

Reflection

What happened? we visited a blood bank and learnt basics of blood grouping by transfusion

So what? Blood transfusion and transfusion medicine form an important of health care

What next?

MUR MEDICAL COLLEGE & HOSPITAL
MUR, KARNATAKA

FORMAT FOR ASSESSMENT OF ECE
Clinical examination of Abdomen

Session number: 2

Date: 1-12-2019

Setting: Classroom/Hospital/Community

Score:

Department visited: General medicine

Parent department: physiology

Summary & conclusions

- We visited the general medicine department in our hospital
- We were taught how to examine abdomen
- Demonstration of all aspects that constitute a clinical exam was performed.

Reflection

What happened? We visited general medicine department to understand and learn clinical examination of abdomen

So what? Clinical examination of a system forms the primary aspect of any diagnosis and is a part of routine health checkups.

What next? There by, we were taught basics

Signature of faculty/mentor

MIR MEDICAL COLLEGE & HOSPITAL
FASALWADI, SANGAREDDY 502204

FORMAT FOR ASSESSMENT OF SELF DIRECTED LEARNING

Session Number: 3

Neuromuscular Junction

Date: 16-10-2019

Self-assessment score:

Faculty assessment score:

Identification of learning needs Yes

Formulation of learning objectives Yes

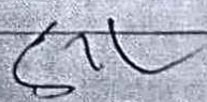

Utilization of appropriate learning resources Yes

New learning strategies Used

Summary and conclusion

Neuromuscular junction is junction between terminal branch of nerve fibre and muscle fibre. Each axon-terminal branch innervate one muscle fibre through neuromuscular junction.

Module 1.3: The doctor-patient relationship

Department: Physiology

Date: 12/3/2020

Competencies
The student should be able to:
1. Enumerate and describe professional qualities and roles of a physician
2. Demonstrate empathy in patient encounters

Reflection

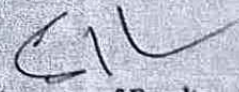

What happened? There must be good communication between a doctor and patient so that patient is able to tell and his trouble without hesitating and proper diagnosis can be done.

So what? If there is proper communication, diagnosis can be more easy and problem of patient can be cured easily.

What next?

proper diagnosis can be made by doctor to make sure that patient gets perfect treatment and patient feels happy & healthy.

Journal Review Presentation

Guidelines for evaluation of Journal Review Presentations.

Sl. No.	Items for observation.
1	Article chosen is relevant and appropriate.
2	Extent of understanding of scope & objective of the paper by the candidate
3	Whether cross references have been consulted
4	Whether the candidate understood the Material, Methods, Observations and statistical analysis
5	Ability to respond to questions on the paper / subject.
6	Audio-Visual aids used
7	Ability to Analyse the paper and co-relate with the existing knowledge.
8	Clarity to presentation
9	Any other observation

* Corollary Grading in all Check lists:

Poor - 0, Satisfactory - 1, Average - 2, Good - 3, Very Good - 4.
