Activity Report

Topic – Clinical skills lab training program - Faculty

Venue: MNR Medical college – Skills Lab – 10:00AM to 1:00PM

Date: 09-02-23

Resource Persons: Dr. Pramod, Dr. Bhavani, Dr. Rakesh Dhir

Audience – All teaching faculty of MNR Medical college and Hospital

Report – Clinical skills lab training session is attended by the teaching faculty of MNR medical college and Hospital. Staff are trained in various skills like Normal delivery, Endotracheal intubation, Lumbar puncture etc. which served as a revision course for them to review their skills. All the staff participated with enthusiasm and newer advances in these procedures were discussed. There was also an open discussion on hoe to enhance the teaching methodology of these clinical skills to students.

Report of Professional Development Program

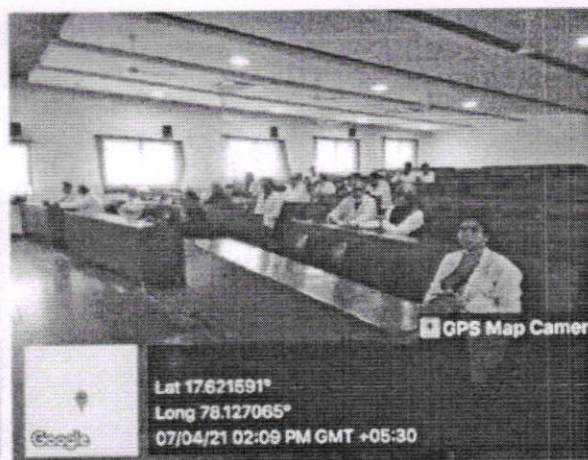

Title of the program : BLS
Date(s) : 07.04.2021
Resource person : Dr.A.Adam, Prof and HOD, Anesthesia

A Professional Development Program on "BLS" was conducted by the department of Anesthesia, MNR Medical College & Hospital on 07.04.2021. Dr.A.Adam, Prof and HOD, Department of Anesthesia was delivered a talk on BLS. 28 participants from various departments are participated in this program.

The main objective of this program was to demonstrate skills in providing basic life support **Dr.A.Adam** has gave his power point presentation on basic life support (BLS) with the following contents.

1. What is Basic Life Support (BLS)
2. Cardiopulmonary resuscitation (CPR)
3. DRSABCD
4. Types of CPR
5. Procedure for CPR

2.3.2 Reports on Training Programs in Skills Lab

MNR MEDICAL COLLEGE & HOSPITAL

MNR Nagar, Fasalwadi, Sangareddy - 502 294, Sangareddy Dist. Telangana. India

Ph: + 85000 56667, (08455) 230523, 230527, 230524 Fax No. (08455) - 230555, 230533

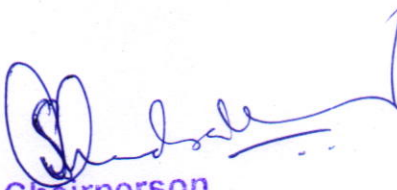

Skill Labs play a very important role in practicing and improving the skills of the students in a safe environment. The skill lab is located in the MNR medical college building and several skill training programs are scheduled for both the UG and PG students. Demonstration of the skills is done on mannequins, models, simulators in small groups in a structured manner.

The main objective of scheduling regular skill lab sessions every year repeatedly for the students is because a skill has to be practiced multiple times to attain perfection and every student attain a particular level of attainment at different course and point of time.

At end of each session:

1. To attain competency in performing the defined skill in a standardized manner.
2. To apply the knowledge and skill attained in clinical scenario.

Students are evaluated of their skills during Formative and summative assessments.

Report on training programme in skill lab

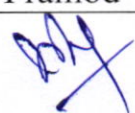

A.Y-2022-23

Skill Lab Facilities are useful to both UG, Interns and PG students where the students can learn and practice the skill in a safe and controlled environment before practicing on the patients. With repetition the students master the skills and they become confident enough to solve a clinical scenario.

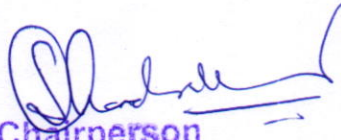

Students are trained under guidance of expert faculty.

Report on training programme in skill lab

A.Y-2020-21

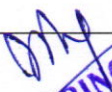

Skill Lab Facilities are useful to both UG, Interns and PG students where the students can learn and practice the skill in a safe and controlled environment before practicing on the patients. With repetition the students master the skills and they become confident enough to solve a clinical scenario.

Due to the COVID – 19 lockdown the skill lab training programs are conducted at a later date for this academic year for the UG and PG batches.

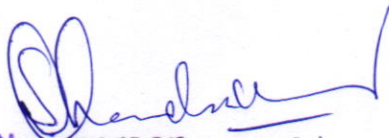

Students are trained under guidance of expert faculty.
