## PROGRAM REPORT

**Program Name:** "Importance of IPR in Academic and Clinical Research"

**Date of activity:** 15/11/2021

**Venue:** Biochemistry Demo Hall 2

**Organized by:** IPR Cell

**Resource person:** Dr Shahila Parween Research Scientist, FRI MNR Institutes

**Number of participants:** 84 students & 12 Faculty

### Objective of the program

The primary objective of clinical research studies includes improvement in patient management. Most clinical research studies are aimed at discovering a new/novel drug to treat a medical condition that presently has no specific treatment, or the available drugs are not particularly effective in curing the disease. Intellectual property rights (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time.

### Contents Delivered

- 1) Exploratory research and aims –
- 2) Descriptive aims –
- 3) Causal- Thank you for reading our article about aims of researches.
- 4) Patents terms and meanings
- 5) Procedure to get patents registered and its importance

### Outcome of the program

The Event covered the aspects of the importance of Intellectual property rights in academic and clinical research. The participants were given importance of the IPR in medical academic and clinical research bringing the awareness among the medical students and faculty.

## PROGRAM REPORT

**Program Name:** "Industry-Academia Collaborations - Role of Biotechnology in Addressing Zoonotic disease"

**Date of activity:** 07/09/2021

**Venue:** Lecture Hall V

**Organized by:** R & D Cell

**Resource person:** Dr Nagendra R Hegde Scientist-H and Director of National Institute of

Animal Biotechnology.

**Number of participants:** 126 Students & 18 Faculty

### Objective of the program

The main objective of the program is Careers in Biomedicine can take many forms, and one common career decision facing scientists is whether to pursue jobs in academia or industry. In this Viewpoint article, four leading scientists who have spent time in both academia and industry provide their perspectives on both types of workplace, such as whether the environments are really as distinct as they are often perceived to be, as well as how academia-industry collaborations can be a driving force in biomedical research and translation.

### Objective of the program

The main objective of the program is to know about research methodology and its importance. One of the most important aspects of a thesis, dissertation or research paper is the correct formulation of the aims and objectives. This is because your aims and objectives will establish the scope, depth and direction that your research will ultimately take.

### Contents Delivered

- Understand the assignment
- Choose a research paper topic
- Conduct preliminary research
- Create a research paper outline
- Paragraph structure
