ASSOCIATE PROFESSOR

DEPT. OF BIOCHEMISTRY

MNR MEDICAL COLLEGE AND HOSPITAL

Number of participants: 56 students & 12 Faculty

Objective of the program

The primary objective of clinical research studies includes improvement in patient management. Most clinical research studies are aimed at discovering a new/novel drug to treat a medical condition that presently has no specific treatment, or the available drugs are not particularly effective in curing the disease. Intellectual property rights (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time.

Contents Delivered

- 1) Exploratory research and aims –
- 2) Descriptive aims –
- 3) Causal- Thank you for reading our article about aims of researches.
- 4) Patents terms and meanings
- 5) Procedure to get patents registered and its importance

Outcome of the program

The Event covered the aspects of the importance of Intellectual property rights in academic and clinical research. The participants were given importance of the IPR in medical academic and clinical research bringing the awareness among the medical students and faculty.
