Objective of the program

The primary objective of clinical research studies includes improvement in patient management. Most clinical research studies are aimed at discovering a new/novel drug to treat a medical condition that presently has no specific treatment, or the available drugs are not particularly effective in curing the disease. Intellectual property rights (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time.
