PROGRAM REPORT

Program Name: "Seminar on Research Methodology – How to go about"

Date of activity: 22/02/2019

Venue: Auditorium, MNR HERA Campus

Organized by: R&D Cell

Resource person: Dr Kavi Kishore CSIR Emeritus Scientist, Osmania University, Hyderabad.

Number of participants: 128 Students & 19 Faculty

Objective of the program

Seminar was organized for the Students and Academicians to develop their knowledge and ability to understand the knowledge Research Methodology. The objectives of the Seminar are

- To develop knowledge on the fundamentals of research
- To build knowledge on research design, application & data analysis
- To develop skills for synopsis/thesis development & academic writing

Contents Delivered

- Introduction, defining a research problem, refining research questions, Formulating objectives and hypothesis,
- Research Design, Mixed Method and Qualitative Research
- Sampling and questionnaire design
- Data Analysis and Interpretation
- Report Writing in Research and Case study

Outcome of the program

The participants of the Seminar will be able to understand the procedures to convert the research outcome into paper writing and report writing. The faculty members and students were benefitted immensely from this workshop. The Seminar motivated the aspiring researchers and also helped the Ph.D holders update themselves. This institute looks forward to conduct multiple informative Seminar on research like this in near future.

PROGRAM REPORT

Program Name: "District Blindness Control Program"

Date of activity: 15/07/2019

Venue: Biochemistry Demo Hall 2

Organized by: IPR Cell

Resource person: Dr Soumitri Associate Professor MNR Medical College

Number of participants: 36 students & 06 Faculty

Objective of the program

The primary objective of clinical research studies includes improvement in patient management. Most clinical research studies are aimed at discovering a new/novel drug to treat a medical condition that presently has no specific treatment, or the available drugs are not particularly effective in curing the disease. "District Blindness Control Program" or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time.

Contents Delivered

- 1) Exploratory research and aims –
- 2) Descriptive aims –
- 3) Causal- Thank you for reading our article about aims of researches.
- 4) Patents terms and meanings
- 5) Procedure to get patents registered and its importance

Outcome of the program

The Event covered the aspects of the importance of Intellectual property rights in academic and clinical research. The participants were given importance of the IPR in medical academic and clinical research bringing the awareness among the medical students and faculty.
