The focus of the policy is on the following:

1. To ensure that the design of the building such as ramp/ lift should be according to the disabled persons.
2. To ensure the accessible, gender-sensitive, safe, usable, and functional washroom facilities should be provided for disabled persons.
3. The use of signage of male and female symbols, following local customs and standards, with raised outlines and bright color contrast, will be more evident to everyone and particularly helpful for persons with visual impairments.
4. Learners with disabilities need to be adequately and appropriately supported in and out of the classroom with the right resources and assistive technology, and with leadership, teaching staff, and college communities that are responsive to their needs.
